Comments:

- G** [Name] yesterday: The colored logos are well highlighted or readable.
- L** [Name] yesterday: "email" + line and "password" + line seems a little bit lost, it's hard to recognize what belongs together
- E** [Name] 2 days ago: I love how the submit button goes from clear to opaque when it can be clicked!
- L** [Name] yesterday: hard to read

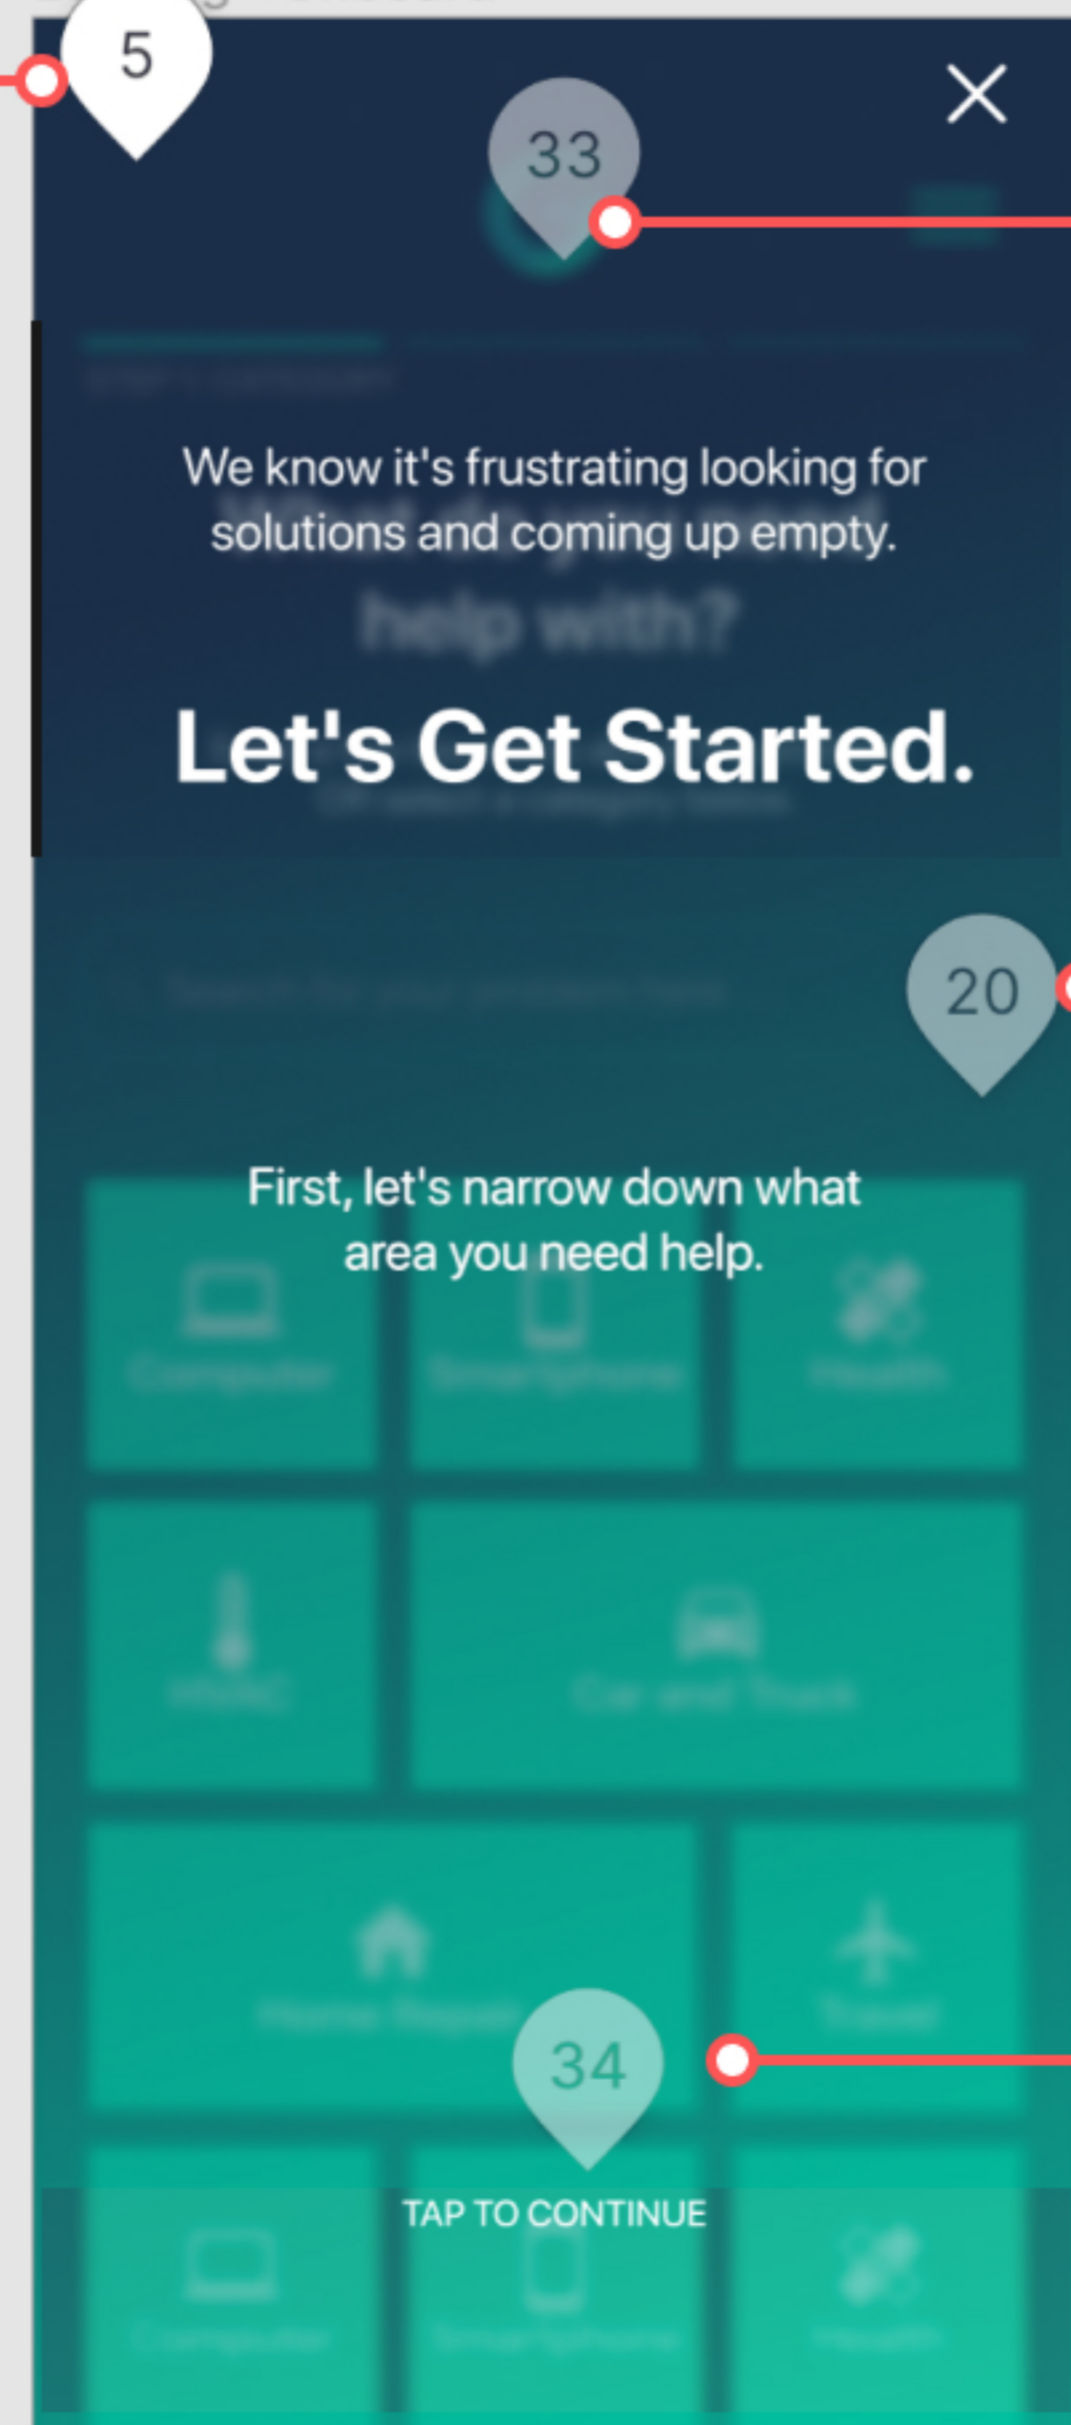

Annotations:

- Connected field title to underline.
- changed text to big stone blue.

E Elena Chavakis 2 days ago ... ✓
I love the effect but the font is so thin it's a little hard to read, especially "Tap to continue" at the bottom of the screen. Maybe I would darken it a little

G G. Kuthan yesterday ... ✓
Wow, very nice this approach with blurred effect overlay as background 👊

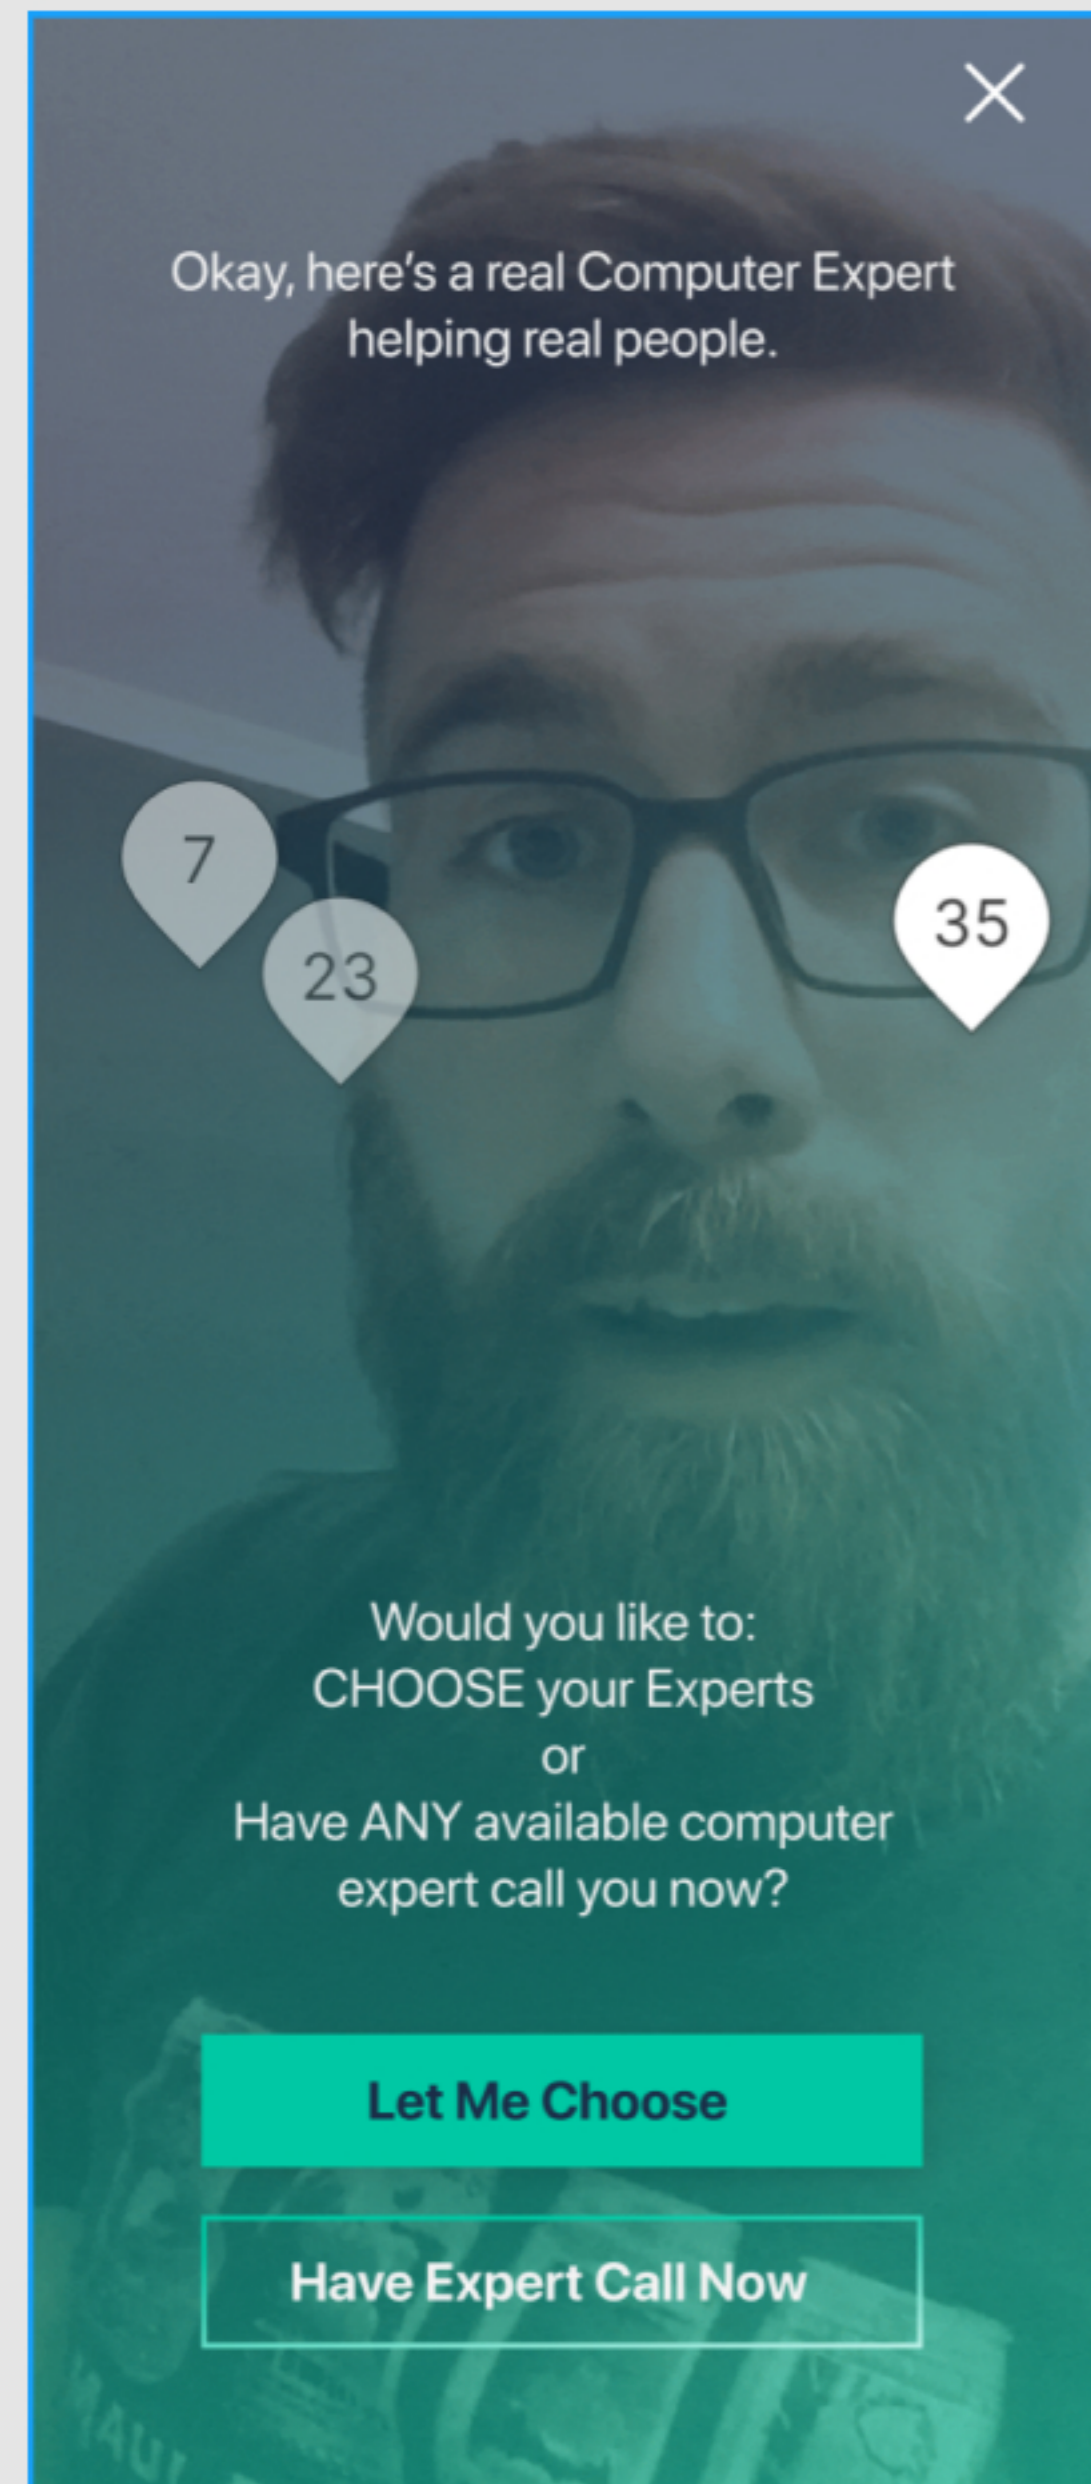

L Lena Wikayama yesterday ... ✓
darken background more?

G G. Kuthan yesterday ... ✓
It is very clear, but maybe could be bigger, think on accessibility

First reaction was "Wow!" but then when I tried to read the text, it was difficult and a little distracting

L Lena Wokagama yesterday ... ✓
really nice!!!!!!

G GG Kuthan yesterday ... ✓
Very nice this kind of video on background, but with less movement , or slower movements could be improved

N Nina yesterday
I agree, It's a bit distracting and for people with motion sickness this could be hard

I darkened the background, but ultimately as the app and expert categories are built out there will be many more sample gifs and more care will be taken.

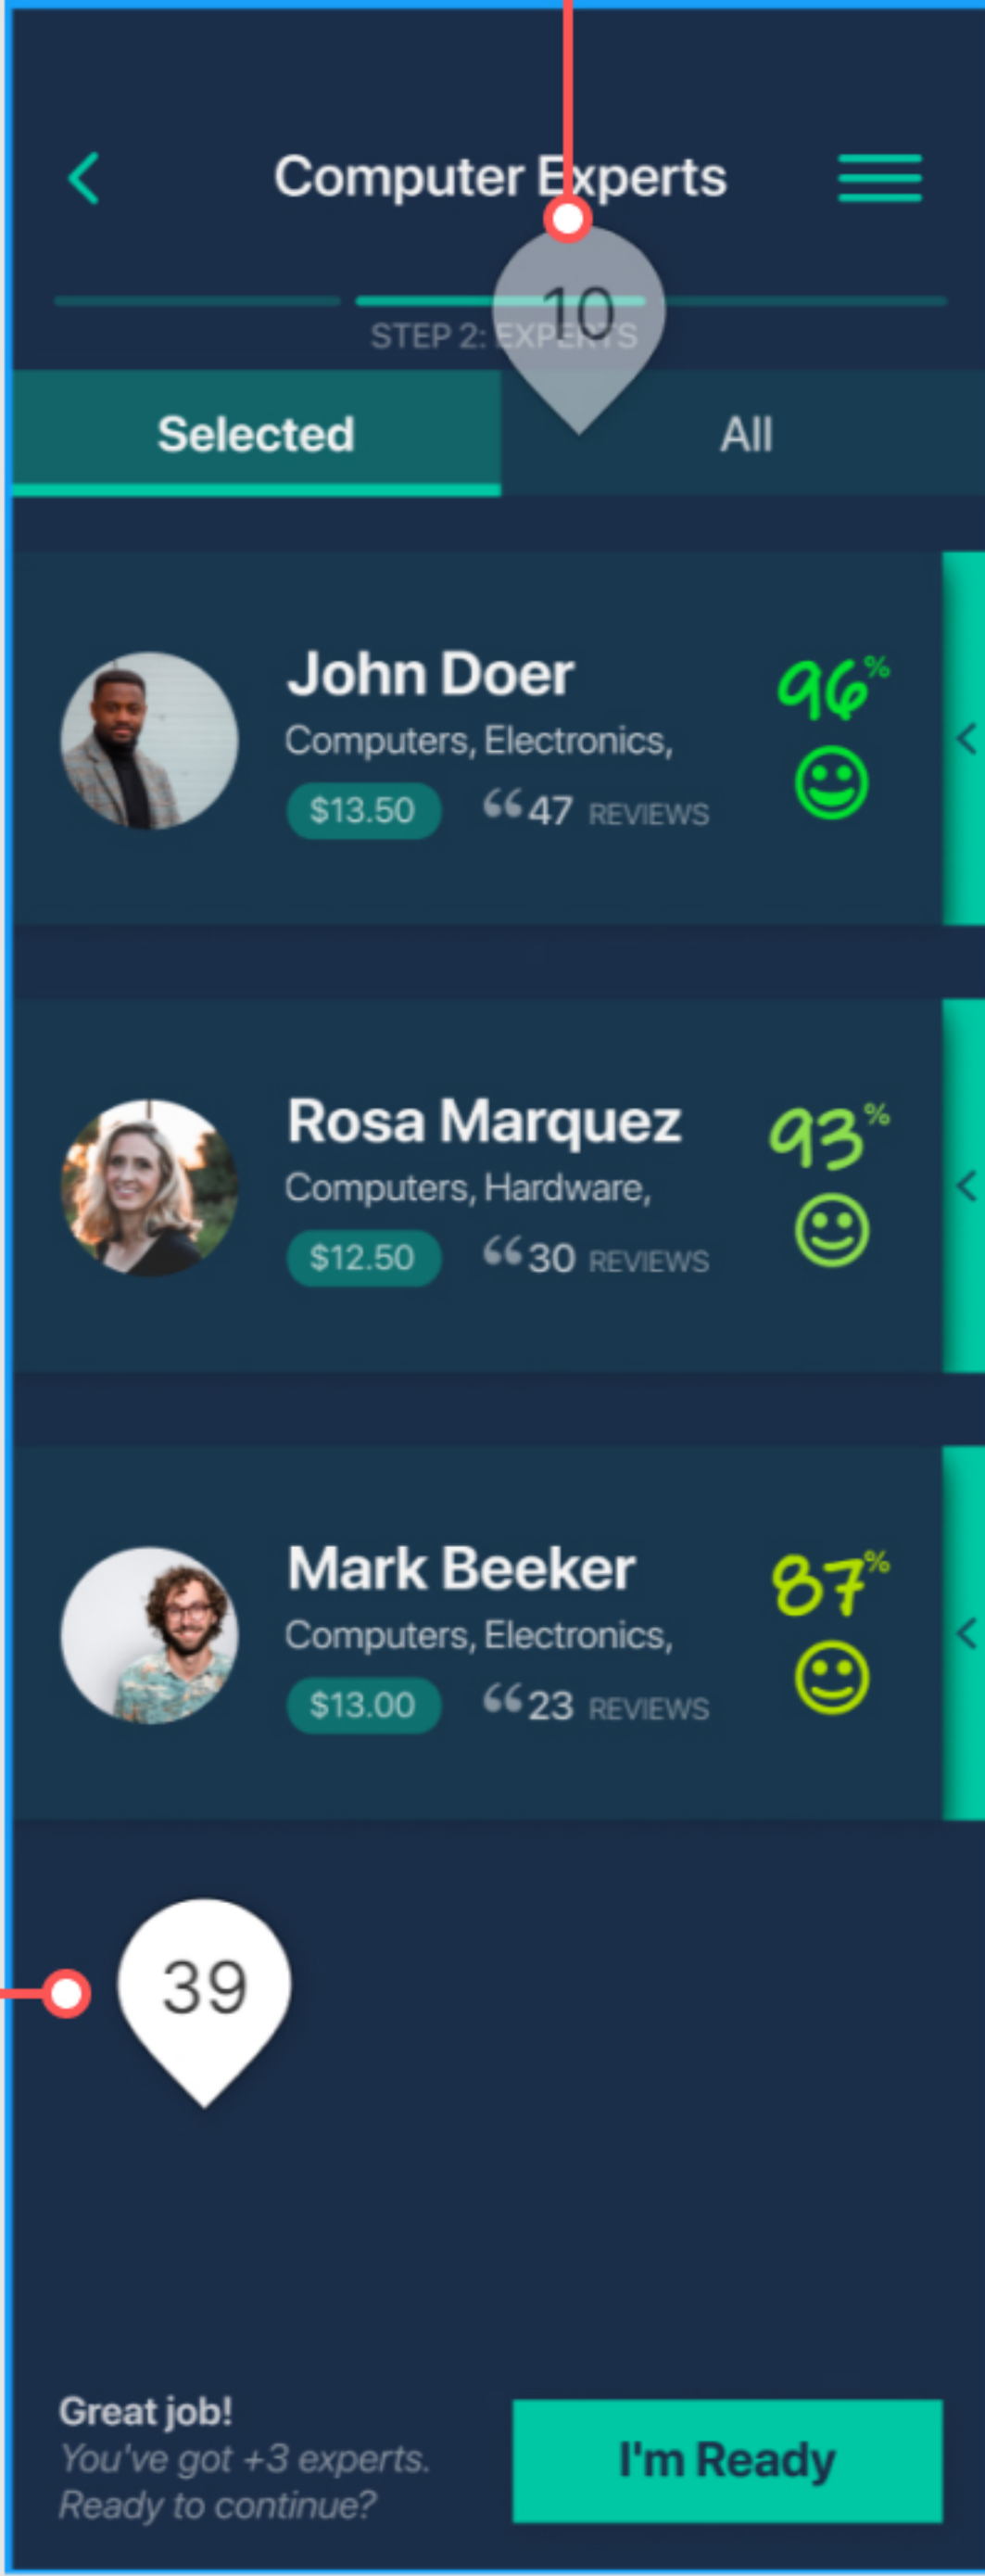

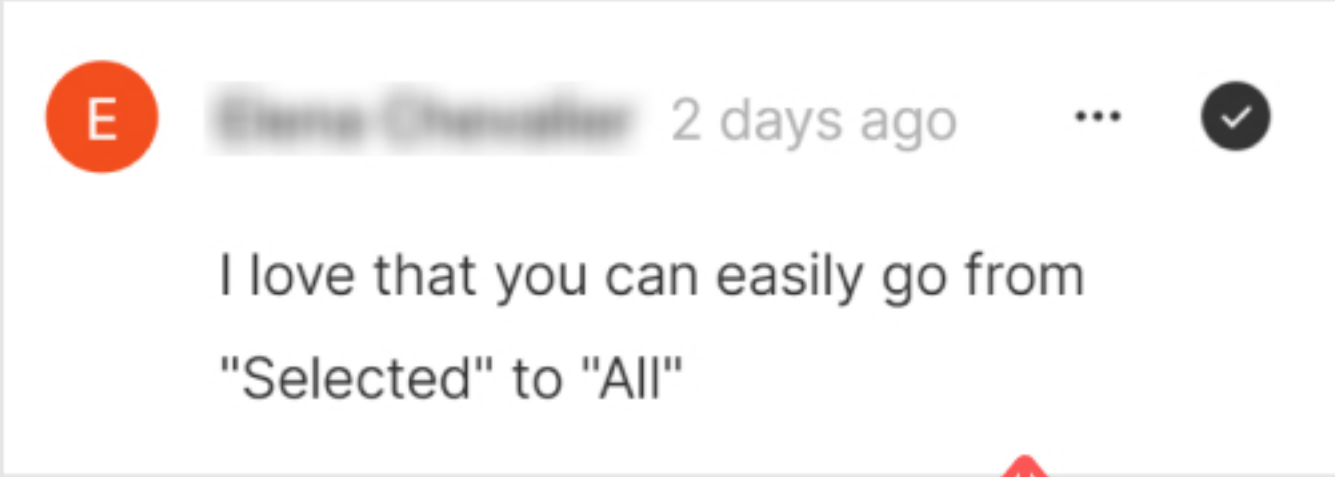

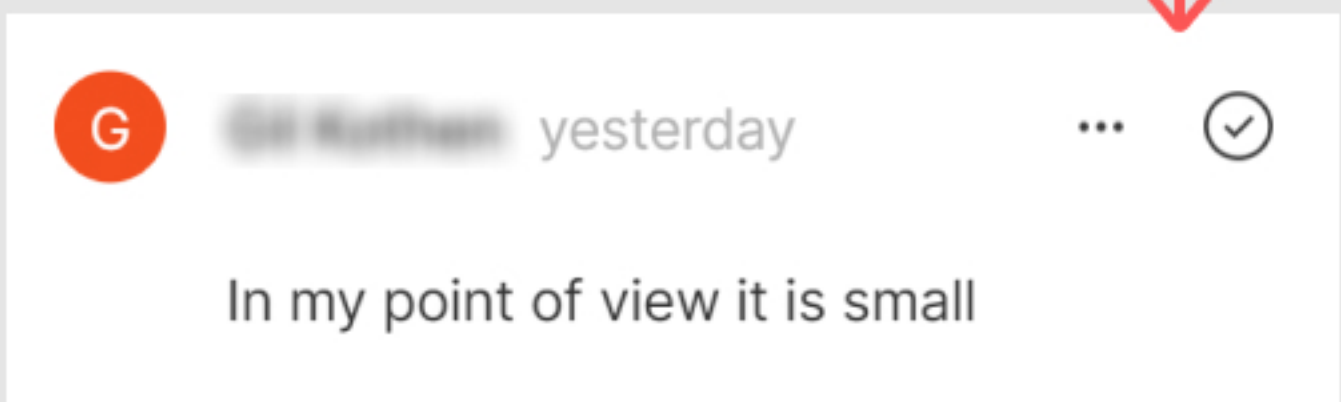

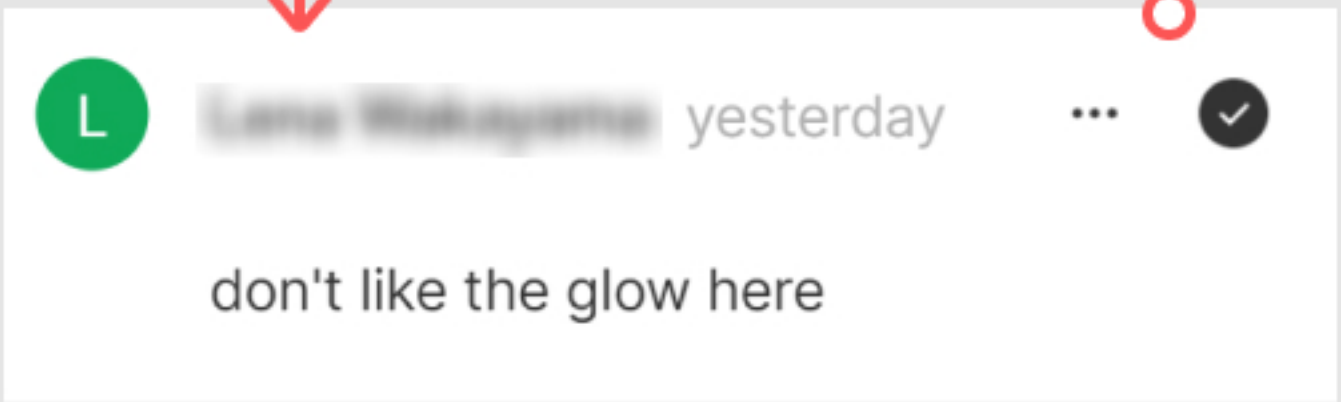

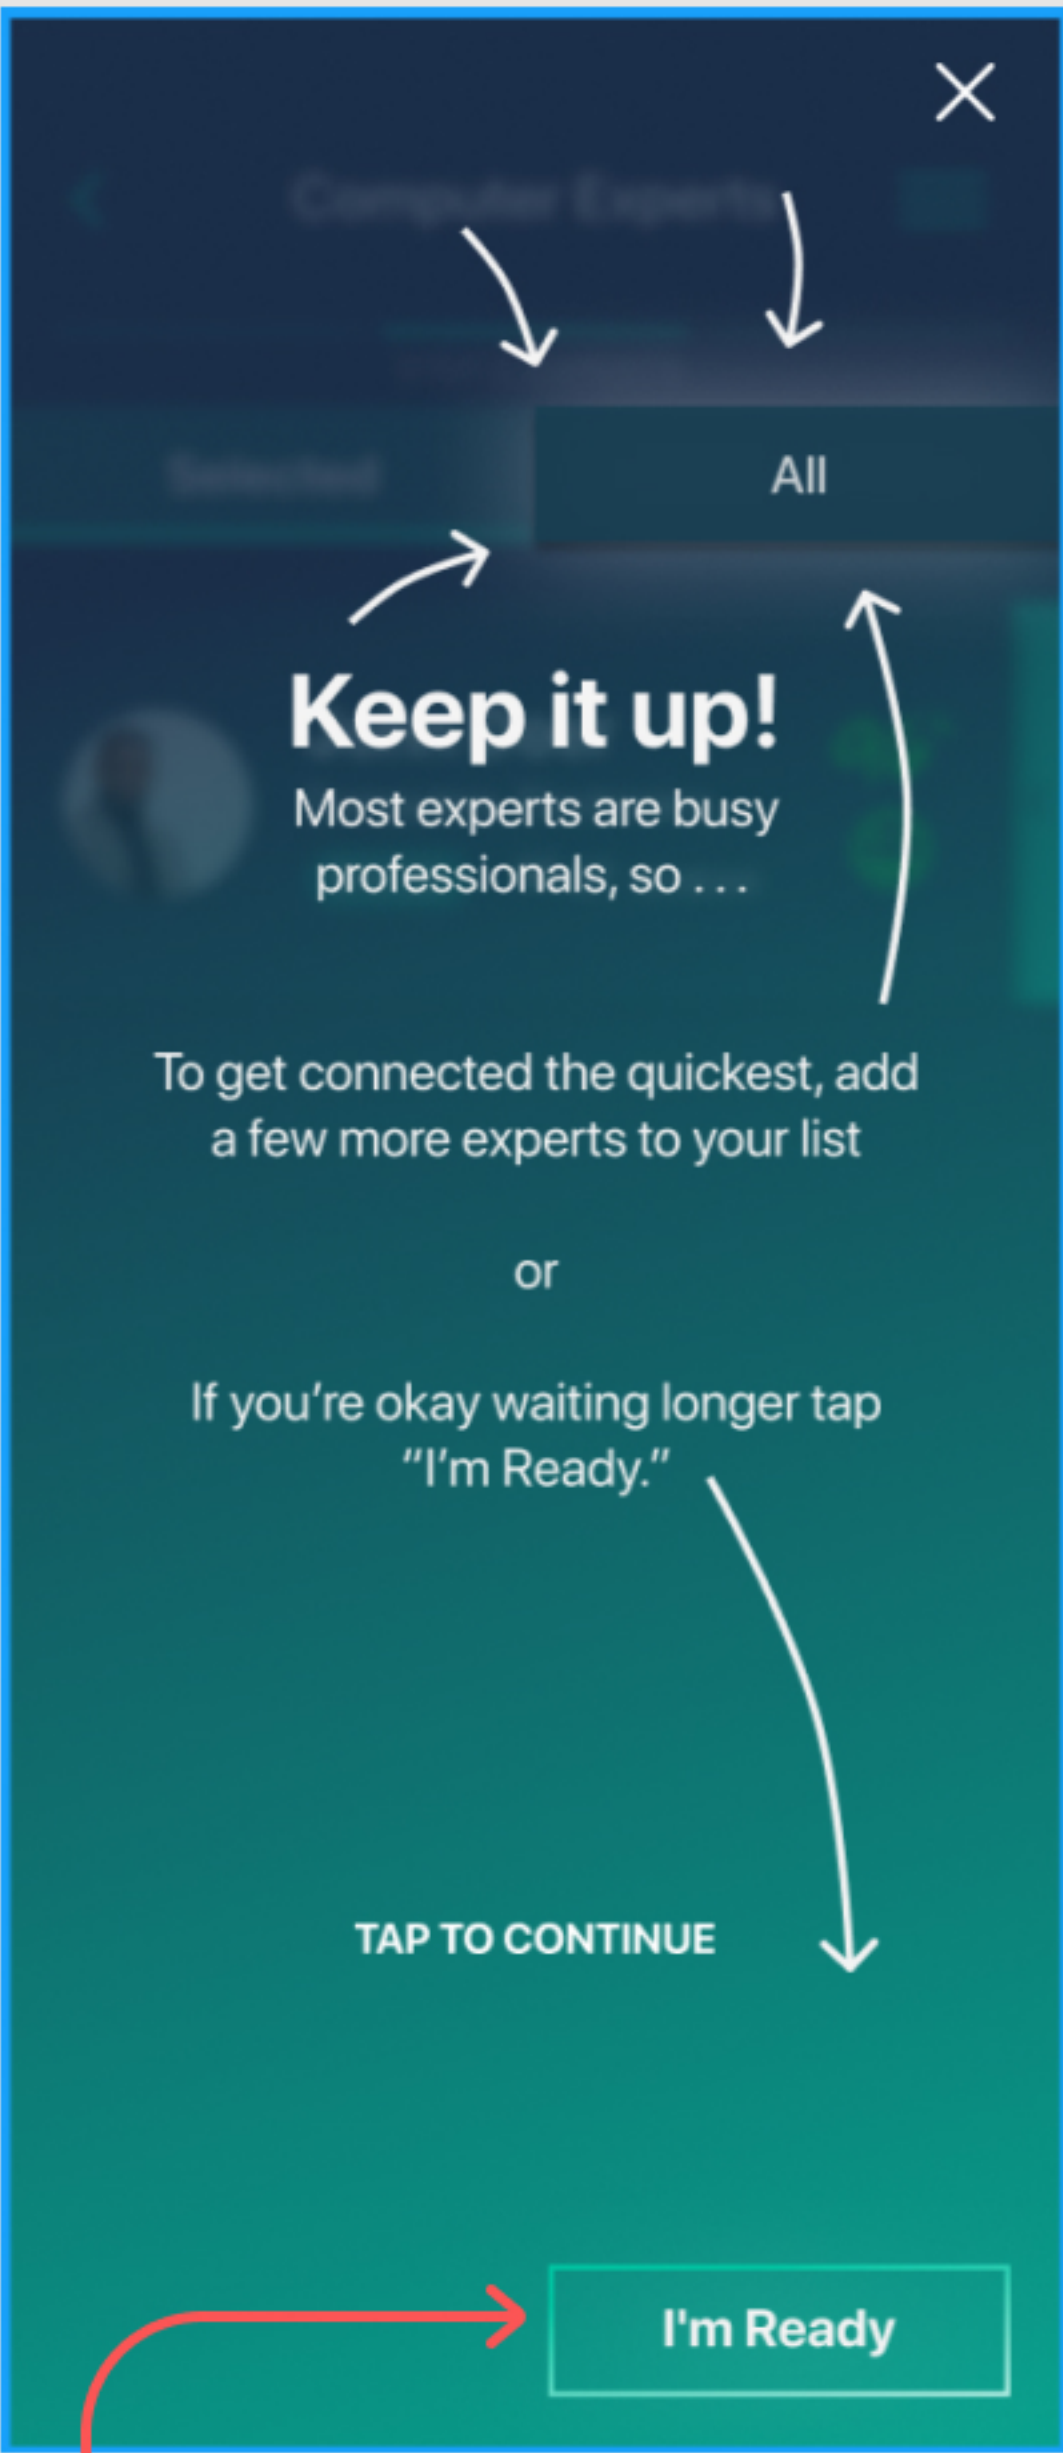

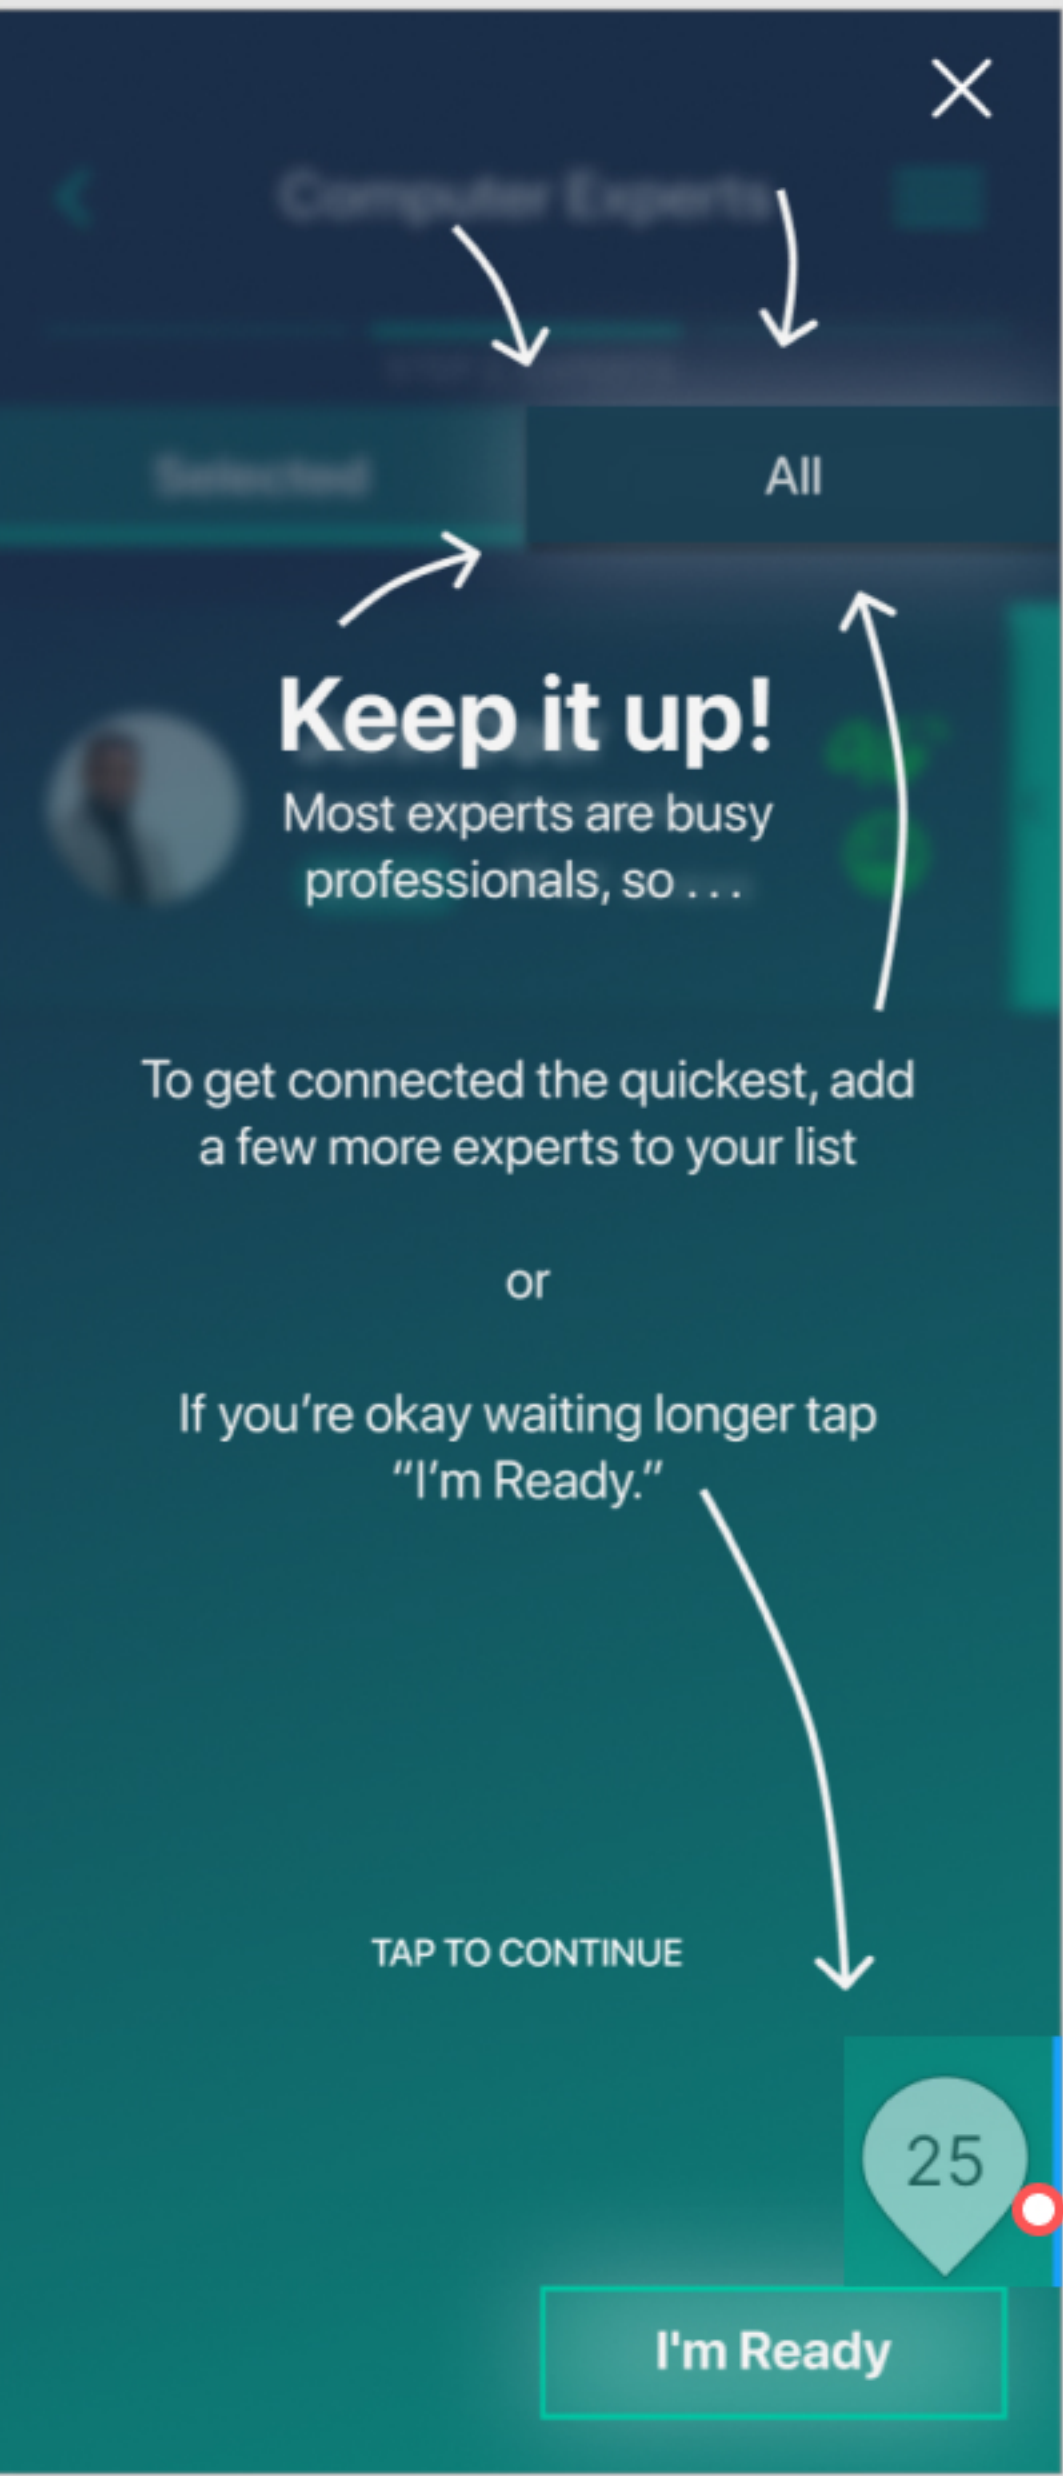

G GG Kuthan yesterday ... ✓
the use of handwritten font style is nice, reinforce that this ratings is made by human people!!! In my point of view very assertive!

L Lena Wokagama yesterday ... ✓
don't know if green is the right colour

Lena Wakayama yesterday
really nice!!! :)

Elena Chavaler 2 days ago
It's amaziing! But I would put the sending arrow pointing right

Lena Wakayama yesterday
agree with elena

Just following iOS pattern. I think it works, even if it gives pause. Perhaps I need to remove it until after the message is typed.

G yesterday
I see the problem only regarding contrast and size. But the general overview it is clear and use very well the screen space.

increased opaqueness on outline and lightened text
